

## **Needs Assessment Tool: Communication Network Diagram**

---

This resource can be used either by the instructor alone as a planning tool or with learners as detailed below).

Brainstorm as a group where you need to use English. You may want to leave the boxes blank, and have the students fill in their own. Some suggested places have been added here. Ask your students to fill in as much as possible. Have them discuss their answers with a partner while you circulate and help as necessary. Collect sheets at the end of the activity and use for future planning.

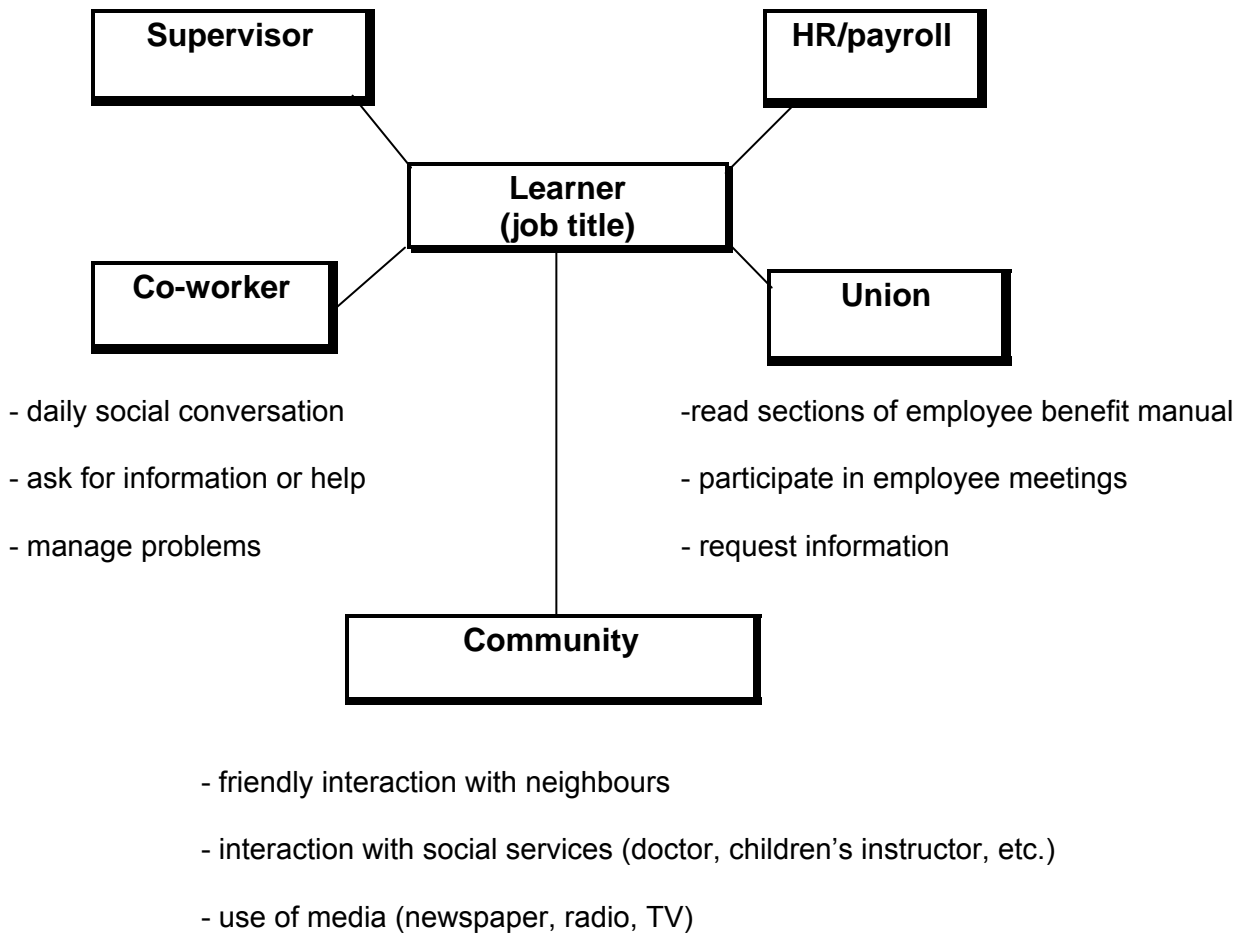

## Communication Network Diagram Sample

### Language tasks/functions:

- understand daily instructions
- ask for explanation
- request vacation

### Language tasks/functions:

- ask for information about deductions
- fill in employee forms
- call in sick
