

ENGINEERING AND APPLIED SCIENCE TECHNICIANS & TECHNOLOGISTS

Certified engineering technicians and technologists are employed in fields such as planning and design, construction and installation, production and operation, research and development, teaching and training, technical marketing, and administration and management.

Engineering and applied science technology is a regulated profession.

Membership is not required, but if you wish to use the titles of certified applied science technician, certified engineering technician, certified applied science technologist or certified engineering technologist you must be registered with the Certified Technicians and Technologists Association of Manitoba.

To register with CTTAM you must:

- have a degree, college diploma, certificate or equivalent education in an engineering technology or applied science discipline
- have a minimum of two years practical engineering technology experience, satisfactory to the CTTAM certification board

You must complete the following steps:

STEP 1: Contact the Certified Technicians and Technologists Association of Manitoba and tell them you are an internationally educated technician or technologist and that you would like to register.

Certified Technicians and Technologists Association of Manitoba
602 - 1661 Portage Avenue
Winnipeg, Manitoba R3J 3T7
Phone: 204-784-1088
Fax: 204-784-1084
E-mail: admin@cttam.com
Website: cttam.com

STEP 2: Complete the Certified Technicians and Technologists Association of Manitoba application form to have your credentials assessed. This form is available at the CTTAM website.

You must submit the following: *

- syllabus**
- original transcripts
- original diplomas or certificates**
- evidence of landed immigrant status

- resumé
- assessment fee (\$140)

* All documents should be presented with a photocopy and the original. (Originals will be returned to you after CTTAM verifies copies.)

** If documents are not in English, notarized translations are required.

STEP 3: Write the professional practice examination.

STEP 4: When all requirements have been met and fees paid, you will become a certified member of CTTAM.

Other information

Fee for certified members is \$155.

Foreign work experience can provide a maximum one-year credit towards the two-year work experience requirement. At least one year of work experience must be in Canada.

The professional practice examination fee is included in the assessment fee. This examination covers the association's code of ethics, bylaws and legislation related to practice. A study guide is provided by CTTAM to help you prepare. Examinations are held at least once per month and are "open-book." The exam is usually taken after the work experience is nearly finished.

Associate membership is granted if academic requirements are met but work experience requirements are not met OR if the work experience requirements have been met but not the minimum educational requirements

Associates will be given a letter confirming evaluated academic level at the earliest date to help them acquire work experience.

Associate members are expected to work towards full membership. Membership fee is \$110.
