

TRADE OF AIRCRAFT MAINTENANCE JOURNEYPERSON

Aircraft Maintenance Journeypersons service and maintain fixed-wing and rotary-wing aircraft, and prepare reports and other necessary paperwork. Aircraft Maintenance Journeypersons are employed by passenger and freight air carriers and aircraft-related specialty repair shops, flight training schools, aeronautical product manufacturers and component shops.

In order to become certified as an Aircraft Maintenance Journeyperson in Manitoba, applicants must apply for and successfully complete the *Apprenticeship Program*. This certification is used toward final federal certification as an Aircraft Maintenance Engineer.

APPRENTICESHIP PROGRAM

The Aircraft Maintenance Journeyperson apprenticeship program is **4 calendar years** of combined on-the-job and classroom training totalling at least **1,800 hours** in each year. To qualify for apprenticeship, applicants must:

- be employed in the trade in Manitoba; and
- be at least **16 years** of age.

* Applicants should have Grade 12 or equivalent high school academic standing including recommended courses in Math and Physics.

Note: If the applicant does not meet the minimum educational requirement he or she may be permitted to enter the program with the permission of the Director of the Apprenticeship Branch.

To register for apprenticeship the applicant must submit:

- a completed Apprenticeship Agreement (available from Apprenticeship);
- all educational documents; and
- a \$50.00 registration fee.

If documents are not in English or French, notarized translations are required.

When the apprenticeship program **and** the required examinations have been successfully completed the apprentice is given a provincial certificate of qualification that meets the basic training requirements to write the Federal Transport Canada exam for an Aircraft Maintenance Engineer's License – Category-M.

The fees detailed above are subject to change without notice.
